Homelessness

What is homelessness?

Homelessness is the worst thing that can happen to you. Homelessness is having no where to sleep. Imagine this, sleeping behind a store, you are freezing to death. That is what people have to go through each day and night, barely having something to eat. How would you feel?

What causes homelessness?

How do you end up on the streets? There is one way you get homeless … lack of money! The job is maybe not enough to pay for basic needs like rent, food, and clothes. Some of the people have families. What happens if they can't pay for rent? That may be the saddest thing to tell your family.

What can YOU do?

There are a lot of things you can do. During your spare time you can volunteer to help the less fortunate. You can help them by working in a shelter, donating, and giving some of your old clothes to them. By doing this, you are helping one person get off the streets. What are you going to do to help?
