

I think Barack Obama should be President of the United States of America because he has a good plan for the economy. He is going to provide \$50 billion to jump start the economy and prevent one million Americans from losing their jobs. Obama will leave no students behind because they need a good education. He will improve the assessments to track student progress to measure readiness for college. Obama will provide health care for all Americans. He will restore fairness and provide 150 million workers tax relief they need.
