10 - 14 - 2010

Dear President Piñera,

Congratulations on the successful work by rescuing the miners that were trapped in a mine for two months. I feel so happy that all the workers were in good condition, and I hope they will get better. In my opinion, I think all the miners or workers would be so thankful to you for being there with them, and bringing in the rescuers. Their families are so thankful to you, and especially the miners who were trapped. Thank you for being strong, and so hopeful during bad conditions.

Sincerely,

Crystal Ramirez, 8th Grade, RYSS
