

This is to inform you of all the poor and homeless people that suffer everyday with their children to take care of also. Come and join us in a fun raiser to help them, because I know that they would really apperciate all of our help. We all know that when we see them in the street we feel bad and want to help. This a good time to show them all that we do care and we are here for them. There will be an area where you can donate things that you don't use or you just don't want. You can even give them some of your old belongings. They will really be glad.

Homelessness needs to stop very soon before its to late.

How to stop homelessness

A lot of people think that homelessness happens to those who refuse to work and refuse to make something of themselves. I want to tell you that it doesn't matter who you are, where you come from or what you do. Homelessness can and does happen to anyone at any time. You never know when it might happen to you. To stop homelessness, we need to help out and also for drugs to stop being sold because that's why lots of people are homeless.

What is homelessness?

Homelessness is a condition of detachment from society characterized by the absence or attenuation of the affiliative bonds that link settled persons to a network of interconnected social structures. Homelessness takes many forms, depending on the type of detachment involved and the local circumstances.

Why does it happen?

Homelessness happens most often because people don't have money and are poor. A lot of people are poor because they do drugs and don't want to get a job. This is very bad because they spend all of their life on the street when they could be doing something way better.

When you see them don't you stop and think to yourself, "Is there any way I can help them?" Right now is a good time to stop what your doing and help us with the poor.
